

## South Asia Regional Trade

Project Title	South Asia Regional Trade
Project Summary	Assess the current and potential volume and types of commodities that make up regional trade in South Asia, as well as the friction points in both infrastructure and economic frameworks, that prevent improved trade between and among South Asian nations.
Country	United States
Agency	Office of the Director of National Intelligence
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	1

## Project Description

Phase One - report the current volume and types of commodities traded among South Asia nations, in particular Afghanistan, Pakistan, and India, and the current trading agreements that make this possible.

Phase Two - report and assess the commodities not being traded or under-traded between and among South Asian nations, as well as gaps in related trade legislation, rules, standards or other related procedures.

Phase Three - assess the potential for increased commodities trade were the gaps and impediments to trading removed.

## Desired Skills Interests
